The MuPIn

The Museo Piemontese dell'Informatica - MuPIn (O.d.V.) is a non-profit organization dedicated to preserving and enhancing the historical and cultural heritage of computing.

Through an extensive collection of computers, historical devices, and archival documents, MuPIn narrates the evolution of technology that has transformed our society.

Located in Turin, MuPIn serves as a gathering place for the technological and cultural community, where the past, present, and future of computing intertwine to inspire new generations of innovators.
